

Questionnaire manual: Financial statistics of financial service activities and activities auxiliary to financial services

Questionnaire code: 13402023

Submitted in: 1st quarter – 20.04.2023; 2nd quarter – 20.07.2023; 3rd quarter – 20.10.2023; 4th quarter – 20.01.2024

Periodicity: Quarterly

p. 1/25

Statistics Estonia guarantees the full protection of data submitted.

eSTAT (<https://estat.stat.ee/>) is for data submission.

Please make sure that you enter data in the correct cell. If you enter alphabetical characters in a number field, a corresponding error message is displayed. In the case of some fields, logic (arithmetic) checks have been applied to prevent data entry mistakes. If there is a conflict in the entered data or they conflict with pre-filled data, an error message appears when the table is checked. In the case of errors, review the data carefully and make corrections.

After correcting the data, save changes and check the questionnaire again. If there are no more mistakes, confirm and submit the data by clicking "Confirm" on the last page of the questionnaire. You will be displayed a message that the data have been submitted successfully. If you have any questions, please contact Statistics Estonia's customer service either by phone at +372 625 9300 (Mon–Thu 8:30–16:30, Fri 8:30–15:30) or by e-mail at klienditugi@stat.ee.

DATA COLLECTED WITH THE QUESTIONNAIRE

Table 00. RESEARCH AND DEVELOPMENT (ONLY FOR A UNIT OPERATING IN ESTONIA)

If filled in online, the table is prefilled with the data from the questionnaire of the previous quarter. Please double check the prefilled field and correct if necessary.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
B_065 / 1	Presence of persons engaged in research and development in the undertaking in the present year *	ENT_B_065	Presence of persons engaged in research and development in the undertaking in the present year – research and development (R&D) is creative systematic work the main criterion of which is innovativeness and the absence of solution for a scientific or a technological problem at the early stage of the work; the aim of R&D is to obtain new knowledge about people, the nature, the society and their mutual interaction by using scientific studies, and the implementation of such knowledge for the production of new materials, products and equipment and for the implementation or improvement of processes, systems and services. The employed persons include both full time employees as well as persons occasionally involved in the R&D activities. Unlike for the rest of the questionnaire, this question is about the activities in the year following the reference year.	valik_jah_ei_1v

Table 3. INVESTMENTS IN TANGIBLE AND INTANGIBLE FIXED ASSETS AND REAL ESTATE INVESTMENTS (INCL. FINANCIAL LEASING), ONLY FOR A UNIT OPERATING IN ESTONIA

NB! Tangible fixed assets also include real estate investments. The data is submitted for the reference quarter.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
H_150_2 / 1	Tangible fixed assets: land – investments	ENT_H_150_2	Land – acquisition cost of land, expenses on land improvement and arrangement, also the land use rights, if classified as tangible fixed assets. Investments are calculated by adding the purchases and improvements, reclassifications from prepayments, capitalised loan expenses and fixed assets in progress.	Positive integer	
H_150_3 / 1	Tangible fixed assets: buildings – investments	ENT_H_150_3	Structures are buildings, i.e., roofed and walled structures which are permanently connected to land and have indoor rooms, and facilities, i.e., structures permanently connected to land which are not buildings. Transport facilities are roads, streets, railways, takeoff and landing strips at airports, bridges, trestles, tunnels, port facilities (piers, jetties, etc.). Pipelines, communication and power lines: water, gas and sewage pipelines (incl. hot water boilers), fountains, water towers, communication and power lines, etc. Civil facilities are mines and quarries, chimneys, stadiums and sports grounds, parks, swimming beaches, golf courses, trampolines, ski lifts, swimming pools, cemeteries, landfills, awnings, etc. Also indicate building rights. Investments are calculated by adding the purchases and improvements, reclassifications from prepayments, capitalised loan expenses and fixed assets in progress.	Positive integer	
H_150_6 / 1	Tangible fixed assets: machinery and equipment – computers and computer systems: investments	ENT_H_150_6	Computers and computer systems – computers and other information processing devices which include servers, laptops and electronic notebooks, computer systems, input and output devices (scanners, printers), memory devices, other automatic data processing equipment, accessories for computers. Also indicate software purchased together with hardware. Investments are calculated by adding the purchases and improvements, reclassifications from prepayments, capitalised loan expenses and fixed assets in progress.	Positive integer	
H_150_4 / 1	Tangible fixed assets: machinery and equipment –	ENT_H_150_4	Means of transport – means of transport used on roads and streets both for cargo as well as passenger transport: motor vehicles, motor vehicle bodies, trailers and semi-trailers,	Positive integer	

Questionnaire manual: Financial statistics of financial service activities and activities auxiliary to financial services

Questionnaire code: 13402023

Submitted in: 1st quarter – 20.04.2023; 2nd quarter – 20.07.2023; 3rd quarter – 20.10.2023; 4th quarter – 20.01.2024

p. 22/25

	means of vehicles: investments		vehicles with electric motor for passenger transport (trolleybuses), special purpose motor vehicles, lorry cranes, motor vehicles for driving on snow, golf carts; also means of transport for rail, water and air transport of cargo and passengers: rail locomotives and rolling stock, trams, water crafts and other special purpose floating devices, aircrafts, motorcycles and bicycles. Investments are calculated by adding the purchases and improvements, reclassifications from prepayments, capitalised loan expenses and fixed assets in progress.		
H_150_7 / 1	Tangible fixed assets: machinery and equipment – other machinery and equipment: investments	ENT_H_150_7	Other machinery and equipment – different conveyors, lifting and loading devices, thermal equipment, cleaning and sorting equipment, laboratory equipment, electrical engines and diesel generators, tools, fittings, etc., except means of transport; engines and turbines (except the engines of aircrafts, vehicles and motorcycles), other generally used machines and mechanisms, steam boilers (except central heating hot water boilers classified as facilities), lifting machines and transition mechanisms, agricultural and forestry machinery (and tractors), machine tools, other special purpose machines (road rollers and lorry cranes), office equipment (except computers), electrical equipment and apparatus not elsewhere classified, radio, television and communication equipment, medical, precision and optical instruments. Investments are calculated by adding the purchases and improvements, reclassifications from prepayments, capitalised loan expenses and fixed assets in progress.	Positive integer	
H_150_31 / 1	Total intangible fixed assets: investments	ENT_H_150_31	Investments in intangible fixed assets – computer software (if the use thereof is independent of the hardware), concessions, franchises, patents, licences, trademarks, goodwill, user rights, customer lists, quotas and other similar assets acquired as intangible fixed assets in the reference period. Investments are calculated by adding the purchases and improvements, reclassifications from prepayments, capitalised loan expenses and fixed assets in progress.	Positive integer	
50400 / 1	Total sales of tangible (incl. investment properties) and intangible fixed assets	FIN_50400	Sale of tangible (incl. real estate investments) and intangible fixed assets in sales price – the price the seller actually gets for fixed assets at the moment of sale (without VAT).	Positive integer	

Table 4. FINANCIAL INCOME AND EXPENSES BY SECTORS (IN EUROS, AT FAIR VALUE, UNCONSOLIDATED, ONLY FOR A UNIT OPERATING IN ESTONIA)

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
80100 / 10	Interest income – non-financial companies	FIN_80100_10	Interest income – all accrual based interest income and interest-like income. Interest-like income is income the amount of which is related to the duration of a period or its ratio to the sum of liabilities (e.g., taken loans), and they are periodised according to the duration of the liability. Non-financial companies – undertakings whose main field of activity is not financial intermediation or financial intermediation ancillary activities (Estonian classification of economic activities EMTAK 2008, section K, https://www.eesti.ee/en/entrepreneur/establishing-a-company/determining-the-main-field-of-activity/).	Positive integer	
80100 / 20	Interest income – financial companies	FIN_80100_20	Interest income – all accrual based interest income and interest-like income. Interest-like income is income the amount of which is related to the duration of a period or its ratio to the sum of liabilities (e.g., taken loans), and they are periodised according to the duration of the liability. Financial companies – undertakings whose main field of activity is financial intermediation or financial intermediation ancillary activities (Estonian classification of economic activities EMTAK 2008, section K:	Positive integer

Table 5. TIME SPENT ON FILLING OUT THE QUESTIONNAIRE (incl. for preparing the data; only for the 3rd quarter)

The table need not be filled in period(s) **2023-I, 2023-II, 2023-IV**.

Please estimate how much time you spent on filling out the questionnaire (incl. time spent on reading the instructions, collecting and preparing data). Record the total time spent by all employees.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
/	Number of hours spent on completing the questionnaire and collecting and preparing the necessary data	TAITMIS EAEGTU NDI	Number of hours spent by all employees on completing the questionnaire. The time spent on completing the questionnaire includes the time spent on reviewing instructions, collecting and preparing the necessary data.	Positive integer	
/	Number of minutes spent on completing the questionnaire and collecting and preparing the necessary data	TAITMIS EAEGMI NUTIT	Number of minutes spent by all employees on completing the questionnaire. The time spent on completing the questionnaire includes the time spent on reviewing instructions, collecting and preparing data. Permitted value range 0–59.	Positive integer	

Table Y2. Overall assessment on the questionnaire

The table need not be filled in period(s) **2023-I, 2023-II, 2023-III**.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
/	Overall assessment on the ease of completing the questionnaire	TAGASI SY_1		rahulolu_vaga_lihtne_vaga_keeruline_5L	

Table Y3. Suggestions and comments

The table need not be filled in period(s) **2023-I, 2023-II, 2023-III**.
