0. Information for the respondent

I he reference period is a calendar year. A parent enterprise submits an UNCONSOLIDATED report.	
It is easier to fill in the questionnaire if annual report data have already been submitted. Annual report data are used to partially prefill EKOMAR, reducing your response burden.	
Data for prefilling are received from the Commercial Register once a day. Only questionnaires with the status "Not started" or "Cancelled" are prefilled.	
If you have already started to fill in the questionnaire but would like to use prefilling, you must first cancel the questionnaire.	
To do this, click on the gear icon in the top right corner and select "Cancel questionnaire". Then start again after the annual report data have been added.	
13x	
13xx	
There are two income statement schemes used in the EKOMAR questionnaire, similarly to annual reports. You must choose only one, i.e. the same scheme that is used in the annual report.	
Please note that cost indicators are entered as positive numbers in the income statement.	
When you have filled in a table and want to check this table, click "Save" and then select "Validate table". This way, it is easier to correct errors in the specific table.	
Data in tables can be uploaded and downloaded in CSV or Excel format. Look here	
If you click "Check", the entire questionnaire is checked and the errors in all tables are displayed simultaneously. Use this button when you have filled in all the tables.	
Click on the table name to access additional information about the table.	
The additional rows or columns marked with contain calculated values which are displayed after saving. These fields are grey and help to correct potential errors.	
In the absence of values, you do not have to enter 0 (zero) in the fields.	
The error message "Warning" indicates possible errors. Please make sure that you have entered the correct data, then click "Accept warnings" and confirm the questionnaire.	
In case of any problems, please call +372 6259 300 or send an email at mailto:klienditugi@stat.ee	
EARLY NOTIFICATION ON SUBMITTING DATA FOR THE YEAR 2025.	
Statistics Estonia will ask the agricultural enterprises included in the 2025 EKOMAR sample for additional information on the costs of agricultural inputs.	
In Table 4.1, enterprises are asked to provide more detailed information on the costs of fertilisers, plant protection products and animal feedingstuffs. Data should be submitted in July 2026
