2. ENVIRONMENTAL PROTECTION INVESTMENTS

Columns 1, 2, and 4 in Table 1 are prefilled if you received support from the Environmental Investment Centre last year. Add the sum of support that was used in the reference period. If the enterprise did not make investments in the prefilled project during the reference period, delete the prefilled row and add actual investments made during the reference period. The list of environmental activities is updated from 2025, we ask to show also investments made for renewable energy, energy efficiency and electric vehicles.

3. INTERNAL CURRENT EXPENDITURE ON ENVIRONMENTAL PROTECTION AND PAYMENTS FOR ENVIRONMENTAL PROTECTION SERVICES

The description of the expenditure made in the previous reporting period and the environmental protection activity are prefilled. Add the expenditure amount and any missing environmental protection expenditures.

Expenditures are expenses incurred in-house (e.g. wages and salaries, equipment), payments refer to services purchased from other enterprises (e.g. wastewater management, waste management).

It is not necessary to provide pollution and resource charges.
