Statistics Estonia guarantees the full protection of data submitted.

Self-service environment a <https://uuringud.stat.ee/> is for data submission.

Please make sure that you enter data in the correct cell. If you enter alphabetical characters in a number field, a corresponding error message is displayed. In the case of some fields, logic (arithmetic) checks have been applied to prevent data entry mistakes. If there is a conflict in the entered data or they conflict with prefilled data, an error message appears when the table is checked. In the case of errors, review the data carefully and make corrections.

After correcting the data, save changes and check the questionnaire again. If there are no more mistakes, confirm and submit the data by clicking "Confirm" on the last page of the questionnaire. You will be displayed a message that the data have been submitted successfully. DATA COLLECTED WITH THE QUESTIONNAIRE

Table 1.1 NITROGEN FERTILISERS

Write in the questionnaire the unit price of the goods sold, exclusive of VAT. If you sold the same goods at different prices during the reference month (e.g. depending on the quantity or agreement with buyer), enter the weighted average price of the goods. If a fertiliser you sell has a different NPK content than those listed in the questionnaire, please select one product with a specific content and package size for each fertiliser type and report its price over a longer period. If possible, please specify the product name and manufacturer in the "Additional information" field and, in case of a significant price change, provide a short explanation to avoid further contact. If the sale of the goods concerned has permanently ceased, select another one that is as similar as possible and report its price henceforth. If a good you sold in significant quantities is missing from the list, add it using the option "Add another product".
