Price of the means of agricultural production. Fertilisers and plant protection products

Write in the questionnaire the unit price of the goods sold, exclusive of VAT. If there are variations in the NPK content or package size within a fertiliser group listed in the questionnaire, please choose one product with a fixed content and package size for each fertiliser type and indicate its price over a longer period. If the same good has been sold in the reference period at different prices depending on the quality, quantity, agreement with buyer, etc., write in the questionnaire the weighted average price. The list of goods is amended only when sale of the goods concerned has been terminated; in that case, this good is replaced by another one as similar as possible. If goods from the same group of goods not listed in the questionnaire have been sold in large quantities, write the name, unit of measurement and unit price of the goods in the vacant row.
