

Statistical activity code: 20409

Questionnaire manual: Price of natural gas

Questionnaire code: 13882026 Submitted in: 1st half of 2026 – 01.08.2026; 2nd half of 2026 – 01.02.2027

Periodicity: Half-yearly

p. 1/3

Statistics Estonia guarantees the full protection of data submitted.

Please note that based on the requests of the respondents, prices are requested in euros per cubic meters. Additionally, we ask for separate prices for natural gas and network services, the excise tax and VAT.

If the network service is provided to a group of users with different excise duty rates, you must calculate the average excise duty per m3. If giga-joules are used, find the m3 value using the higher heating value 0.038 GJ = 1 m3. m3 value = GJ value divided by 0.038. If kWh are used, find the m3 value using conversion where 1 m3 of natural gas equals 10.55 kWh of natural gas.

Self-service environment a https://uuringud.stat.ee/ is for data submission.

Please make sure that you enter data in the correct cell. If you enter alphabetical characters in a number field, a corresponding error message is displayed. In the case of some fields, logic (arithmetic) checks have been applied to prevent data entry mistakes. If there is a conflict in the entered data or they conflict with prefilled data, an error message appears when the table is checked. In the case of errors, review the data carefully and make corrections.

After correcting the data, save changes and check the questionnaire again. If there are no more mistakes, confirm and submit the data by clicking "Confirm" on the last page of the questionnaire. You will be displayed a message that the data have been submitted successfully. If you have any questions, please contact Statistics Estonia's customer service either by phone at +372 625 9300 (Mon–Thu 8:30–16:30, Fri 8:30–15:30) or by e-mail at klienditugi@stat.ee.

DATA COLLECTED WITH THE QUESTIONNAIRE

Table 1. PRICES OF NATURAL GAS FOR NON-HOUSEHOLD CONSUMERS

Natural gas sold to apartment associations is considered as household consumption. End-user prices are only shown for gaseous natural gas transmitted through the network.

If there are consumers with different excise duty rates in the group, the average excise duty rate per cubic meter must be calculated. If the calculation is in gigajoules (GJ), divide the amount by 0.038 to get the volume in cubic meters (1 m³ = 0.038 GJ). Indicate the past 6 months' average price of natural gas sold for final consumption. 1 m³ equals on average 10,55 kWh

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You neet not fill in the value: period, economic activity
1/1	Type of service provided for selling natural gas – non-household consumers *	G3A	Types of services provided to non-household consumers: natural gas, network service, package. Natural gas – only natural gas is sold to consumers (without network service). Network service – only network service is sold to consumers (without natural gas). Package – natural gas is sold to consumers together with the network service.	maagaas3L	
1/2	Natural gas: sold to non-household consumers – amount consumed	GH1M	Consumption of gas by non-household consumers, in thousand cubic metres. The amount is expressed as a value range. The consumer group is determined based on the annual consumption of natural gas per consumer.	kuupmeetrid _26_yle_10 5300_6L	
1/3	Natural gas: number of non- household consumers *	GH2	Non-household consumer – a legal person who uses electricity for own consumption, except households.	Positive integer	
1 / 4	Natural gas: sold to non-household consumers – amount *	GH3	Amount of natural gas sold to non-household consumers.	Positive real number (0,2)	
1/5	Natural gas: sold to non-household consumers during the past 6 months – average price (excluding taxes and fees)	GH0A	Average natural gas price for non-household consumers in the reference period, excluding taxes and fees.	Positive real number (0,4)

	and fees)				
1/6	Natural gas: sold to non-household consumers during the past 6 months – average network service price (excluding taxes and fees)	GVH0A	Average natural gas network service price for non-household consumers in the reference period, excluding taxes and fees.	Positive real number (0,4)	
1/7	Natural gas: sold to non-household consumers – excise duty on fuel	GA0A	Excise duty on natural gas sold to non-household consumers. Excise duty is added to the invoice pursuant to the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act and is paid into the state budget.	Positive real number (0,4)	

Table 2. NATURAL GAS PRICES FOR HOUSEHOLDS

Natural gas sold to apartment associations is considered as household consumption. End-user prices are only shown for gaseous natural gas transmitted through the network.

Indicate the past 6 months' average price of natural gas sold for final consumption. 1 m³ equals on average 10,55 kWh.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You neet not fill in the value: period, economic activity
1/1	Type of service provided for selling natural gas – household consumers *	G13K	Types of services provided to household consumers: electricity, network service, package. Natural gas – only natural gas is sold to consumers (without network service). Network service – only network service is sold to consumers (without natural gas). Package – natural gas is sold to consumers together with the network service.	maagaas3L	
1/2	Natural gas: sold to household consumers – amount consumed	GH7M	Consumption of natural gas by household consumers, in cubic metres. The amount is expressed as a value range. The consumer group is determined based on the annual amount of natural gas consumed per consumer.	kuupmeetrid _525_yle_5 265_3L	
1/3	Natural gas: number of household consumers *	GH8	Household consumer – a consumer who uses natural gas for household purposes, which are not associated with his/her business or professional activities.	Positive integer	
1 / 4	Natural gas: sold to household consumers – amount *	GH9	Amount of natural gas sold to household consumers.	Positive real number (0,2)	
1/5	Natural gas: sold to household consumers during the past 6 months – average price (excluding taxes and fees)	GH0K	Average natural gas price for household consumers in the reference period, excluding taxes and fees.	Positive real number (0,4)	
1/6	Natural gas: sold to household consumers during the past 6 months – average network service price (excluding taxes and fees)	GVH0K	Average natural gas network service price for household consumers in the reference period, excluding taxes and fees.	Positive real number (0,4)	
1/7	Natural gas: sold to household consumers – excise duty on fuel	GA0K	Excise duty on natural gas sold to household consumers. Excise duty is added to the invoice pursuant to the Alcohol, Tobacco, Fuel and Electricity Excise Duty Act and is paid into the state budget.	Positive real number (0,5)	

LISTS / CLASSIFICATIONS

Name of the list/classification: kuupmeetrid_525_yle_5265_3L
