Statistical activity code: 20413

Questionnaire manual: Prices of land transport services

Questionnaire code: 14382026 Submitted in: By the 6th date after the end of the reporting month

Periodicity: Monthly

Statistics Estonia guarantees the full protection of data submitted.

Self-service environment a https://uuringud.stat.ee/ is for data submission.

Please make sure that you enter data in the correct cell. In the case of some fields, logic (arithmetic) checks have been applied to prevent data entry mistakes. If there is a conflict in the entered data or they conflict with prefilled data, an error message appears when the table is checked. In the case of errors, review the data carefully and make corrections.

If you have any questions, please contact Statistics Estonia's customer service either by phone at +372 625 9300 (Mon–Thu 8:30–16:30, Fri 8:30–15:30) or by e-mail at klienditugi@stat.ee.

DATA COLLECTED WITH THE QUESTIONNAIRE

Table 1. PRICES OF LAND TRANSPORT SERVICES

Select 3-5 services of key importance in sales.Starting with the February questionnaire, columns 1, 2, 4, 6, and 7 are prefilled. Please double-check these and revise where necessary, and fill in the price field. If a prefilled service is no longer provided, write in the "Remark" column that the service has been discontinued and add a new service on a new row.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You neet not fill in the value: period, economic activity
1 / 1	Service – service/contract ID	PI_SP_TUNNUS_1_1	Service/contract ID – a code that uniquely identifies a contract or service of key importance in the enterprise's sales.	Text	
1 / 2	Land transport services – description of the service	PI_SP_49_1_2	The service should be described with such accuracy that would allow identifying the service unmistakably in future periods. Specify the main factors that influence the price: type of cargo, weight or volume of goods, number or size of containers, point of origin and destination (e.g. 1,000 tonnes of paper from point A to point B). If transport is carried out on the basis of individual contracts of carriage and/or negotiated prices, select a typical transport route that recurs under as similar conditions as possible (cargo, type of vehicle, point of origin and destination, distance, and other factors that determine the final price), and show the cost of this route. Example: international freight transport, point of origin A, destination B, cargo X, mode of transport Y, excl. road tolls – single service price. In the case of multiple movements (fixed distance, type of vehicle, cargo), indicate the unit price based on the unit of measurement used for pricing.	Text	
1 / 3	Service – remark	PI_SP_MARKUS_1_3	If the service is no longer provided or has lost its representability in the enterprise's sales, it should be replaced with as similar a service as possible (e.g. from the same group of services); in the remark field, add a brief comment about the reason for the replacement. If the price or description of the service differs considerably from that in the previous month, add a brief comment about the reason for this change.	Text	
1 / 4	Land transport services – unit	PI_SP_49_1_4	Unit of measurement of the service (e.g. km, containers, tonnes, transport from point A to point B).	Text	
1 / 5	Land transport services – unit price in the reference month	PI_SP_49_1_5	Unit price in the reference month, excluding VAT, in euros, rounded to full cents. If the service was temporarily not sold in the reference period, write '0' in the price field. If the price or description of the service differs considerably from that in the previous month, add in the remark field a brief comment about the reason for the change.	Positive real number (0,2)	
1 / 6	Service – unit price in the	PI_SP_HIND_EEL	Unit price of the service in the previous month In euros rounded to full cents.	Positive real number
