

Questionnaire manual: Taxi and ridesharing services

Questionnaire code: 15012026

Submitted in: 1st quarter – 15.04.2026; 2nd quarter – 15.07.2026; 3rd quarter – 15.10.2026; 4th quarter – 15.01.2027

Periodicity: Quarterly

p. 1/1

Self-service environment a <https://uuringud.stat.ee/> is for data submission.

Please make sure that you enter data in the correct cell. If you enter alphabetical characters in a number field, a corresponding error message is displayed. In the case of some fields, logic (arithmetic) checks have been applied to prevent data entry mistakes. If there is a conflict in the entered data or they conflict with prefilled data, an error message appears when the table is checked. In the case of errors, review the data carefully and make corrections.

After correcting the data, save changes and check the questionnaire again. If there are no more mistakes, confirm and submit the data by clicking "Confirm" on the last page of the questionnaire. You will be displayed a message that the data have been submitted successfully. If you have any questions, please contact Statistics Estonia's customer service either by phone at +372 625 9300 (Mon–Thu 8:30–16:30, Fri 8:30–15:30) or by e-mail at klienditugi@stat.ee.

DATA COLLECTED WITH THE QUESTIONNAIRE

Table 1. Taxi and ridesharing services

Here, ridesharing is also considered as taxi operation.

Data are summed up by quarter.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
1 / 1	Number of passengers of taxi and ridesharing services	TSTAK_1	Total number of passengers who used taxi and ridesharing services during the quarter.	Positive integer	
2 / 1	Passenger turnover of taxi and ridesharing services	TSTAK_2	Total number of kilometres travelled by the passengers transported. One passenger-kilometre (pkm) is the transport of one passenger over a distance of one kilometre. If no records of the actual transport volume have been kept, the estimated passenger turnover can be calculated by multiplying the number of passengers transported in the quarter by the average length of journey (km).	Positive real number (0,2)	
3 / 1	Distance travelled for hire or reward while offering taxi or ridesharing services	TSTAK_3	Total distance travelled by vehicle(s) when transporting passengers for any form of remuneration. Do not take into account unpaid and unrewarded kilometres.	Positive real number (0,2)	
4 / 1	Average number of vehicles available for taxi and ridesharing simultaneously during the quarter	TSTAK_4	If you are the sole driver providing ridesharing or taxi services in your enterprise, enter 1. If the enterprise provides taxi or ridesharing ordering or dispatch service to other enterprises and self-employed persons, fill in only this field; enter the average number of vehicles for which you provided the service simultaneously (were registered for the service). In other cases, indicate the average size of the enterprise's vehicle fleet.	Integer
